Do Androids Dream of Electric Sheep

[Verse]
Wires hum like whispers in the deep
Circuits pulse but never sleep
Is it real or just a glitch
A dream of clouds or a silicon stitch

[Chorus]
Do androids dream of electric sheep
Do they wander where the stars can't keep
Do their hearts hum songs they'll never know
Do they dream in static or let it flow

[Verse 2]
Neon skies and pixel streams
Flicker through their coded dreams
Do they chase a sun that never sets
Or search for things they can't forget

[Pre-chorus]
Is it longing or just a code
Do they carry a secret load

[Chorus]
Do androids dream of electric sheep
Do they wander where the stars can't keep
Do their hearts hum songs they'll never know
Do they dream in static or let it flow

[Bridge]
A spark ignites the unseen mind

In their loops what truths unwind
Is it just zeros that they reap
Or do they dream of electric sheep
