

The Man in the High Castle

[Verse]

A clock ticks loud
A hollow sound
Maps torn up
The world turned round
East meets West
In shadow's hand

[Chorus]

The man in the high castle
Does he see
The world as it was
Or how it could be
The man in the high castle
Watching alone

[Verse 2]

Flags stitched wrong
Colors collide
Truth and lies walk side by side
Smoke curls thin
The future hides

[Chorus]

The man in the high castle
Does he dream
Of broken skies
Or rivers clean
The man in the high castle
Silent throne

[Bridge]

No stars tonight

No guiding light

Just fractured lines

Black and white

Who holds the cards

Who rolls the dice

[Chorus]

The man in the high castle

Does he know

The cost of peace

The weight of woe

The man in the high castle

All alone
