

## **Sound of Earth**

(Verse)

Deep hum under all the noise  
Old pulse of forgotten joys  
Slow heartbeat of rocks and soil  
Breathing life beneath the coil

Whispers rising from the ground  
Echoes shaped in ancient sound  
Dust remembers every birth  
Silence holds the weight of Earth

(Chorus)

Sound of Earth  
Sound of Earth  
Sound of Earth

(Verse)

Mountains speak in broken tones  
Rivers carve their aching moans  
Forests hum in shadowed light  
Cities pulse through every night

Underneath our metal skin  
Every truth is born again  
Planet singing through the dirt  
Every note a hidden hurt

(Chorus)

Sound of Earth  
Sound of Earth

Sound of Earth

Sound of Earth

Sound of Earth

Sound of Earth

(Bridge)

Deep below the quiet burns

Planet burns and burns and burns

(Chorus)

Sound of Earth

Sound of Earth

Sound of Earth

Sound of Earth

Sound of Earth

Sound of Earth
