

## Yacht Song

(Verse)

You said you needed ocean air  
To cleanse your billionaire despair.  
Champagne tears, designer frowns,  
Common tragedy in marble towns.

Call it freedom, call it “no plan”,  
But it’s just money with an orange tan.  
You pose on sunsets like a king  
Hand on helm — soul sinking.

(Chorus)

So go sail on your precious yacht,  
Show around your brand new tart  
Gather friends, host and toast  
They’re the ones that loathe you most.

Keep laughing at the world  
Keep thinking you’re the clever part  
Go sail on your precious yacht  
Until orcas tear you apart.

(Post-Chorus)

Ahhhh  
I'm team orca  
Ahhhh  
I'm team orca

(Verse)

You said the ocean “feels like home”,

I guess your home is monochrome.  
You never cared for rising tides  
As long as crypto never dies.

You built a kingdom on a wave,  
A palace made of tax evades.  
So take your joyride, captain man —  
Nature always has a plan.

(Chorus)

So go sail on your precious yacht,  
Show around your brand new tart  
Gather friends, host and toast  
They're the ones that loathe you most.

Keep laughing at the world  
Keep thinking you're the clever part  
Go sail on your precious yacht  
Until orcas tear you apart.

Until orcas tear you apart.

(Bridge)

Black fins rising in the blue,  
They've got better taste than you.  
Circle once, circle twice —  
Eco-justice, nature's spy.

(Chorus)

So go sail on your precious yacht,  
Show around your brand new tart  
Gather friends, host and toast

They're the ones that loathe you most.

Keep laughing at the world  
Keep thinking you're the clever part  
Go sail on your precious yacht  
Until orcas tear you apart.

(Post-Chorus)

Ahhhh

I'm team orca

Ahhhh

I'm team orca

Ahhhh

I'm team orca

Ahhhh

I'm team orca

Go sail on your precious yacht  
Until orcas tear you apart.
