

## Melting Ice

(Verse)

Breathing cold,  
World exhales.  
Lines of frost  
Become thin veils.  
Snow that whispered  
Now unglues —  
Something shifts,  
You feel it too.

(Chorus)

Melting ice,  
Drip drip drop.  
Hear the rhythm —  
It won't stop.  
Silent water  
Coming through —  
Melting ice  
Is coming for you.

(Verse)

Colors fade  
Where rivers start.  
Frozen skin  
Begins to part.  
Shadows tremble,  
old and new —  
Water wakes  
And pulls at you.

(Chorus)

Melting ice,

Drip drip drop.

Hear the rhythm —

It won't stop.

Silent water

Coming through —

Melting ice

Is coming for you.

Melting ice

Is coming for you.

Melting ice

Is coming for you.
