

Main Character

(Verse)

Woke up late, private jet
Scrolling memes instead of threats.
Mocha served, ditch the plain,
And my playlist says I'm main.

(Verse)

Everyone's watching,
Pretending to care.
Still I'm the hero,
With the ketamine stare.

(Chorus)

I'm the main character, can't you see?
The world's just background, built for me.
Lights and drama, rocket fame,
Life's a movie, play my name.
Life's a movie, play my name.
Life's a movie, play my name.

(Verse)

Bills unpaid, don't address,
I'm serving tweets in my chaos x.
Stocks go down, I'm in the red,
Tesla's board is effin scared.

(Verse)

Everyone's watching,
Pretending to care.
Still I'm the hero,

With the ketamine stare.

(Chorus)

I'm the main character, can't you see?
The world's just background, built for me.
Lights and drama, rocket fame,
Life's a movie, play my name.
Life's a movie, play my name.
Life's a movie, play my name.

(Chorus)

I'm the main character, can't you see?
The world's just background, built for me.
Fake it louder, I don't mind,
Cause viral love is hard to find.

(Chorus)

I'm the main character, can't you see?
The world's just background, built for me.
Lights and drama, rocket fame,
Life's a movie, play my name.
Life's a movie, play my name.
Life's a movie, play my name.

Life's a movie, play my name.
Life's a movie, play my name.
Life's a movie, play my name.
