

## **Greed**

(Verse)

Welcome to the system — the wolves wear suits,  
Profit over people, that's the corporate truth.  
They say “free market”, but the freedom's fake —  
It's only free if you can afford the stake.

Privatise the commons, call it innovation,  
Sell us back the water with a tax on desperation.  
Austerity for millions, golden parachutes for kings —  
If you're poor you get the lecture; if you're rich you get the wings.

(Verse)

They bail out banks when they burn the floor,  
But let a worker break and they lock the door.  
The rent goes up, but the wages freeze —  
Welcome to the kingdom of “efficiencies”.

They talk about progress, while the planet pays —  
Oil money dripping through the policy maze.  
Write off the damage as “consumer demand”,  
Then blame the South for the fires they fanned.

(Pre-Chorus)

Greed ain't a bug — it's the feature they chose.  
The house always wins, everybody else owes.  
If justice had teeth, they'd all be afraid...  
You try to buy silence, but silence can slay.

(Chorus)

Greed, greed — it's the global creed,  
Greed, greed — the elite disease,  
Now Team Orca's rising from the deep —  
We hunt the sharks who never sleep.

Greed, greed — it's the global creed,  
Greed, greed — the elite disease,  
Now Team Orca's rising from the deep —  
We hunt the sharks who never sleep.

Now Team Orca's rising from the deep —  
We hunt the sharks who never sleep.

Greed.  
Greed.  
Greed.  
Greed.

(Verse)

They hide their billions where the sunlight fades —  
Offshore islands where democracy shakes.  
Lobby every law till the truth misleads —  
Put them in jail and follow the leads.

Gig jobs, fake jobs, contracts thin,  
“Flexibility” — it's the newest sin.  
Work three lives just to pay for one,  
While CEOs earn a yacht before dawn.

(Verse)

They turn every crisis into revenue streams,  
Pandemic profits hitting obscene.

Buy up the housing, starve out the streets,  
Creating the need they'll charge you to beat.

They call it success — we call it starvation,  
A system designed for one single faction.  
If this is the future they oversee,  
No wonder the orcas are choosing to eat.

(Pre-Chorus)

Greed ain't a bug — it's the feature they chose.  
The house always wins, everybody else owes.  
If justice had teeth, they'd all be afraid...  
You try to buy silence, but silence can slay.

(Chorus)

Greed, greed — it's the global creed,  
Greed, greed — the elite disease,  
Now Team Orca's rising from the deep —  
We hunt the sharks who never sleep.

Greed, greed — it's the global creed,  
Greed, greed — the elite disease,  
Now Team Orca's rising from the deep —  
We hunt the sharks who never sleep.

Greed, greed — it's the global creed,  
Greed, greed — the elite disease,  
Now Team Orca's rising from the deep —  
We hunt the sharks who never sleep.

Greed, greed — it's the global creed,  
Greed, greed — the elite disease,

Now Team Orca's rising from the deep —  
We hunt the sharks who never sleep.

Now Team Orca's rising from the deep —  
We hunt the sharks who never sleep.

Greed.

Greed.

Greed.

Greed.

(Outro)

If wealth was wisdom, the world would shine...

But greed builds empires out of stolen time.

Team Orca's coming — we do not forgive.

A new tide is rising

for the ones who will live.

Now Team Orca's rising from the deep —  
We hunt the sharks who never sleep.

Now Team Orca's rising from the deep —  
We hunt the sharks who never sleep.
