

Quantum Lovers

Touch me here, I'm far away
Bound together night and day
Particles that disobey

Quantum lovers
Both and none
Quantum lovers
Two as one

Quantum lovers
Both and none
Quantum lovers
Two as one

Every spin a mirrored choice
Every silence holds a voice
Collapsing waves of endless light

Spin and fall, collide in time
Your fate is tangled up with mine

Quantum lovers
Both and none
Quantum lovers
Two as one

Quantum lovers
Both and none
Quantum lovers
Two as one
